## 2. Intellectual Property Rights

IPRs essential or potentially essential to the present document may have been declared to ETSI. The information pertaining to these essential IPRs, if any, is publicly available for **ETSI members and non-members**, and can be found in ETSI SR 000 314: *"Intellectual Property Rights (IPRs); Essential, or potentially Essential, IPRs notified to ETSI in respect of ETSI standards"*, which is available from the ETSI Secretariat. Latest updates are available on the ETSI Web server (<http://ipr.etsi.org>).

Pursuant to the ETSI IPR Policy, no investigation, including IPR searches, has been carried out by ETSI. No guarantee can be given as to the existence of other IPRs not referenced in ETSI SR 000 314 (or the updates on the ETSI Web server) which are, or may be, or may become, essential to the present document.

---

## 3. Service Provisioning Tests

The Service Provisioning Tests are referred to the following tests reported in the TestPlan document: TD\_SSP\_01, TD\_SSP\_02, TD\_SSP\_03, TD\_SSP\_04. With reference to the 2<sup>nd</sup> Plugtests event, the collections have been modified in order to include the multi-domain services not yet tested before: S1-leaf-2 and S2-leaf-2 services. The configuration of each vendor, due to test remotization, remains in the single domain configuration. However, the combination of provisioning services tested in the 2<sup>nd</sup> and in this event allows to verify full service provisioning including multi-domain tests.

For the full description of the Test Plan document that can be found at [https://portal.etsi.org/Portals/0/TBpages/CTI/Docs/mWT\\_Plugtest2-3\\_TestPlan\\_v1.0.pdf](https://portal.etsi.org/Portals/0/TBpages/CTI/Docs/mWT_Plugtest2-3_TestPlan_v1.0.pdf).

The results of the tests are expressed in the form of tables derived from the HTTP report obtained after the execution of each collection test against the controller of each participant.

The order of the results reflects the order of the test performed during the sessions: 1) Huawei, 2) Ceragon, 3) SIAE, 4) NEC, 5) Ericsson, 6) Intracom.
