

# Membership Approval Process (MAP) [ES - EG]

Status code	Milestones	Description
0	WI creation	This milestone marks the crucial step when aWork Item (WI) is created via the Portal or the ETSI Work Programme.
0 gp	Work Item proposed to the Working Group	The Work Item is submitted to the Work Group.
0 a	Work item adoption	The Work Item (WI) is adopted by the Technical Group (a committee of experts) if not a Standardisation Request (SReq). If the WI is under SReq, it is adopted by the National Standardisation Bodies (NSBs).
1	Start of work	This milestone marks the crucial point at which the development or drafting of the Work Item begins.
2	Early draft produced	Preliminary version of the Deliverable, still under active development.
4	Stable draft produced	Version of the Deliverable that has reached a level of technical completeness. The Deliverable is no longer subject to technical modifications, its content is relatively stable and no major technical modifications are expected.
6	Final draft for approval produced	Version of the Deliverable considered as the last version of the Deliverable that is considered and ready for approval.
7	Final draft endorsed by the Working Group	Final version of the Deliverable submitted to the Working Group for endorsement.
8	Final draft endorsed by the Technical Group	The Technical Group has reviewed and given their official approval or support for the final draft.
8 A	Final draft registered by ETSI Secretariat	After a conclusive quality check produced by the ETSI Secretariat, ensuring that the ETSI Drafting Rules have been followed, the draft is officially entered into the system by the ETSI Secretariat and is now part of the Standard Making Process (SMP).
10 FM	Start of Membership Vote	This milestone marks the official launch of the period during which the ETSI members vote (Membership Approval Process – MAP) for 60 calendar-day period—based on predefined weights—on whether to approve, reject, and/or comment on an ETSI Standard or ETSI Guide elaborated on proposal from Full or Associate members. The ETSI members have the duty to collect comments and submit them to the ETSI Secretariat by electronic means. There is no minimum participation required. See clause 2.2.3 of the ETSI Technical Working Procedures (V51) for further details.
10 GM	End of Membership Vote	60 calendar-day after the opening, the Member Vote is closed, and the nature of comments submitted (if any) is checked as well as the results. At this stage of the process, only non-technical comments will be considered for integration into the final draft. If technical comments have been submitted, they will be considered for a future release. See clauses 11.3 and 14 of the ETSI Rules of Procedures (V51) for further details.
11	Final deliverable adopted for publication	The final draft has been adopted and will soon be made available free of charge to everyone via the web.
12	Publication	The final draft is published and defacto made available to all via the web.
