

STF «STF456»
Title: «eCall Migration»
Author: Bob Williams

Subject: European eCall implementation Platform (EEIP)
Place: Brussels
Date: 25 April 2013

Travel Order: STF/YYYY/NNN n/a

Experts travelling to meetings other than those of ETSI TBs must produce an executive report of their attendance. The report should provide the necessary information to assess the benefit for the STF from the attendance. In particular, the report should mention the scope of the meeting/conference/event, the outstanding participants (persons, Companies, Organizations), the contacts realized, the interventions of the expert, the copy of presentations/documents submitted and, if possible, testimonials of the perception of the audience.

If required for the EC/EFTA contract, the original signed attendance sheets for the documentation of the in-kind contribution must be posted to the following address:

*ETSI
STFLINK
650, Route des Lucioles
F-06921 Sophia Antipolis
France*

Please send this report to <mailto:stflink@etsi.org> as soon as possible after the conclusion of your mission and before submitting the travel reimbursement request.

The approval of the Mission Travel Report by the STF Manager is required to authorize the reimbursement of the travel cost.

This is an example of “bullet points” structure.

1 Scope of the event

This meeting is the half yearly management plenary meeting of EEIP

2 Participants

Administrations, MNO's, PSAPs, Equipment manufacturers, automotive manufacturers, consultants, EC Officials.

The meeting is relevant to the work of STF 456 because it is the implementation platform for eCall, dealing with solving implementation issues. Migration is obviously critical to this group.

3 In-kind contribution

Some, particularly from the administrations, while appreciating the briefing, were unable to sign the 'in-kind contribution' list. Signatures were obtained from 42 contributors.

4 Outstanding presentations

I provided a briefing (130320 To CEN TC278 stf456_v001) as approved by the STF team leader, briefing EEIP participants on the remit and work schedule of STF456, offering sharing of all key documents, and inviting contribution and comment to the work of the STF.

5 Presentations/interventions from the STF

See 130412 To TC-ITS stf456_v001

6 Stakeholders reaction/comments

The EEIP meeting acknowledged the importance of this work and its relevance to EEIP and the importance of integration. The TC welcomed the opportunity to comment and contribute and asked for draft documents to be shared at an early stage so comments could be timely.

7 Knowledge acquired / guidance received for the STF work

This was a preliminary input to brief them on the remit of the STF and stimulate the cooperation and involvement in the work of the STF. Some helpful comments were provided to the STF.

8 STF results dissemination / recognition

I was welcomed as a representative of the STF, see also comments in 6.

9 Impact of the participation on the STF

This was a preliminary input to brief them on the remit of the STF and stimulate the cooperation and involvement in the work of the STF. It received positive result and a promise of review, cooperation and contribution.

10 Conclusion

The outreach was successful in liaison to EEIP, in briefing it as to the remit of the STF, and in obtaining promises to review and contribute
