

STF «STF456»
Title: «eCall Migration»
Author: Bob Williams

Subject: ISO TC204 & ISO TC204 WG18
Place: Kobe, Japan
Date: 06-12 October 2013

Travel Order: STF/2013/

Experts travelling to meetings other than those of ETSI TBs must produce an executive report of their attendance. The report should provide the necessary information to assess the benefit for the STF from the attendance. In particular, the report should mention the scope of the meeting/conference/event, the outstanding participants (persons, Companies, Organizations), the contacts realized, the interventions of the expert, the copy of presentations/documents submitted and, if possible, testimonials of the perception of the audience.

If required for the EC/EFTA contract, the original signed attendance sheets for the documentation of the in-kind contribution must be posted to the following address:

*ETSI
STFLINK
650, Route des Lucioles
F-06921 Sophia Antipolis
France*

Please send this report to <mailto:stflink@etsi.org> as soon as possible after the conclusion of your mission and before submitting the travel reimbursement request.

The approval of the Mission Travel Report by the STF Manager is required to authorize the reimbursement of the travel cost.

This is an example of “bullet points” structure.

1 Scope of the event

This meeting was a scheduled ISO TC plenary with associated WG meetings October 2013. ISO TC204 WG18 is the working group responsible for application level Cooperative ITS Standards, which is the environment that will provide “ITS-station” standards, i.e. the platform from which, packet switched eCalls will be made in the longer term. Hence very relevant to STF456.

Our objective in attending was to brief our ISO Colleagues on the progress of STF456, and to advise them of likely impacts on their Standards, and requirements regarding supporting eCall on an ITS-Station platform.

2 Participants

Australia	4
Austria.	1
Canada.	1
China.	1
France.	5
Germany.	3
Italy.	1
Japan.	40+
Korea.	12
Netherlands	2
New Zealand	1
Norway.	2
South Africa	1
Spain.	1
Sweden.	1
UK.	4
USA.	22

3 In-kind contribution

As we were unable to circulate the current draft technical report (in comment resolution process in ETSI MSG), and could only verbally report progress of the STF and respond to questions, we did not feel it appropriate to collect in-kind signatures.

4 Outstanding presentations

BW made a presentation to ISO TC204 WG18 on Wednesday 9th October, and to the CHOD/Plenary meeting on Friday 11th. He summarised “that the work (of STF456) was progressing, and there had been significant evolution since the MSG approved interim draft in the summer. They did not therefore offer to circulate the current approved draft, but a new interim draft was due to be submitted to MSG for approval, within a few weeks, and BW undertook to circulate this draft at the earliest opportunity to provide adequate time for TC204 members to comment. As no formal presentation was made, no participation signatures were obtained.”

5 Presentations/interventions from the STF

No formal presentation was made, only a verbal report and a promise to circulate the interim working draft after the ETSI MSG CR process is completed.

6 Stakeholders reaction/comments

The short briefing was appreciated by the meeting participants, who again requested to have the draft TR circulated to them while they were still in a position to influence its final content, and not as a post completion fait-accomplit.

7 Knowledge acquired / guidance received for the STF work

This was a mid-project summary of progress, and will be followed by circulation of the current working draft after it has passed through ETSI MSG comment resolution.

8 STF results dissemination / recognition

I was welcomed as a representative of the STF, see also comments in 6.

9 Impact of the participation on the STF

This was an intermediate to summarise progress of the STF, advise that the interim draft will be circulated before the end of the year and that review and contribution to that draft will be appreciated.

10 Conclusion

Brief as it was, the outreach was successful, in particular liaison to WG18, in briefing it as to the progress of the STF, and in obtaining promises to review and contribute.
