

STF «STF456»
Title: «eCall Migration»
Author: Bob Williams

Subject: CEN TC278 WG15
Place: Sophia Antipolis, France
Date: 23-34 January 2014

Travel Order: STF/2013/

Experts travelling to meetings other than those of ETSI TBs must produce an executive report of their attendance. The report should provide the necessary information to assess the benefit for the STF from the attendance. In particular, the report should mention the scope of the meeting/conference/event, the outstanding participants (persons, Companies, Organizations), the contacts realized, the interventions of the expert, the copy of presentations/documents submitted and, if possible, testimonials of the perception of the audience.

If required for the EC/EFTA contract, the original signed attendance sheets for the documentation of the in-kind contribution must be posted to the following address:

*ETSI
STFLINK
650, Route des Lucioles
F-06921 Sophia Antipolis
France*

Please send this report to <mailto:stflink@etsi.org> as soon as possible after the conclusion of your mission and before submitting the travel reimbursement request.

The approval of the Mission Travel Report by the STF Manager is required to authorize the reimbursement of the travel cost.

This is an example of “bullet points” structure.

1 Scope of the event

This meeting was a scheduled CEN TC278 WG15 meeting. As an interim task centric WG meeting had been held in November, this meeting was deferred to January 2014. CEN TC278 (eSafety) is of course very relevant to STF456.

Our objective in attending was to brief on the progress of STF456, and to advise them of likely impacts on their Standards, and requirements regarding supporting eCall on an ITS-Station platform.

2 Participants

NAME	Country	Organization	Email
B Williams (Chair) (BW)	UK	CSI	bw_csi@fastmail.fm
Bernfried Coldeway	DE	ADAC	bernfried.coldeway@adac.de
Ryan Edwards	DE	Adam Opel	Ryan_m.edwards@de.opelcom
Francois Fischer	BE	ERTICO	f.foscher@mail.ertico.com
Francesca Forestieri		GSMA	fforestieri@gsma.com
Guillaume Honore	UK	Jaguar Land Rover	ghonore@jaguarlandrover.com

3 In-kind contribution

As we were still unable to circulate the current draft technical report (in comment resolution process in ETSI MSG), and could only verbally report progress of the STF and respond to questions, the STF leader did not feel it appropriate to collect in-kind signatures.

4 Outstanding presentations

BW, supported by DW, presented a short oral update and summary of the remainder of work to conclusion of the project. The issue regarding default to 2G/3G was clarified and it was agreed that there would be a need for a CEN Standard, equivalent to HLAP for 2G/3G. BW instigated generating this as a new work item. The meeting looked forward to receiving the final output report of the project, which would be introduced and explained to WG15 by BW/DW..

5 Presentations/interventions from the STF

No formal presentation was made, only a verbal report and a promise to circulate the interim working draft after the ETSI MSG CR process is completed.

6 Stakeholders reaction/comments

The briefing was appreciated by the meeting participants.

7 Knowledge acquired / guidance received for the STF work

This was a mid-project summary of progress, and will be followed by circulation of the current working draft after it has passed through ETSI MSG comment resolution.

8 STF results dissemination / recognition

I, and DW were welcomed as representatives of the STF.

9 Impact of the participation on the STF

This was an intermediate to summarise progress of the STF, advise that the interim draft will be circulated when possible and that review and contribution to that draft will be appreciated.

10 Conclusion

The outreach was successful.

A handwritten signature in blue ink that reads "Bob Williams". The signature is written in a cursive style and is underlined with a single horizontal line.
